Kernel Recipes 10th edition

The conference is celebrating its

10th anniversary
25 to 27 september 2023

Kernel Recipes 10

th anniversary
25 to 27 september 2023

What is Kernel Recipes ?

hupstream will organize the 10th edition of Kernel Recipes conference on 25 to 27th september 2023 in Paris.

We have started working on Kernel Recipes more than 10 years ago. The main goal was to create a yearly meeting in France and give the opportunity to meet the guys involved in kernel.org. But we wanted to organize it so that it can be less formal and more "human" than most of the existing meeting in Europe or in the US. That's why the max number of expected people is about 150. There is no main line for the talks but rather quite an open one: current burning topics, future of Linux kernel development, project organization, security, relations with other free software projects, relations with hardware manufacturers.

All talks are organized in a single room so that people do not have to choose what talks they should attend. Priority is given to pedagogy and exchanges between attendees and speakers. A lunch is offered for each day so that people can discuss some more and we use to have social events at the end of each days.

Feedbacks

> I'm extremely grateful to @KernelRecipes for organizing this amazing conference! It was an excellent experience as always. The talks were great, the hallway track was amazing, and I enjoyed meeting so many good people! I can't wait for next year!
>
> Christian BRAUNER - Microsoft

> The experience of being part of the most unique Linux kernel conference in the world, always makes me feel grateful and committed with the community. Thanks to all the people that reached out to me during the event to say hi. Really looking forward to the 10th edition.
>
> Gustavo A. R. SILVA - Linux Foundation

> Great thanks to the organizers of kr2022 for providing such a great venue for the kernel community to exchange ideas and build better opensource software.
>
> Libre Computer

> The Godfather handoff. kr2022 comes to an end, can't believe it's been 3 years since the last one. Looking forward to kr2023, hope I'll see you there!
>
> Jens Axboe - Facebook

> This years Kernel Recipes was great. Many thanks to the main organizers and everyone that made this amazing conference possible. And a tip to those working on interesting things in the land of the Linux kernel : hand in a talk proposal for the next edition, you won't regret it!
>
> Thorsten LEEMHUIS

> Thank you so much to everyone for a fantastic time!
>
> Drew FUSTINI - Baylibre

> Thanks a lot for such an amazing edition of Kernel Recipes! I thoroughly enjoyed every minute of the week and am fondly looking forward to kr2023
>
> Alexander GRAF - Amazon

> KernelRecipes was awesome, can't wait until next year!!!
>
> David MILLER - Red Hat

> As usual, it's a sad thing leaving Paris and KernelRecipes behind. Thank you all for three amazing days! Onward the next!
>
> Bjorn TOPEL - Rivos Inc

?

Why sponsoring

Some figures about the 9th edition, after 2 years off

- people registered on 3 days : 100 in less than 1 day

- chum rate : less than 1%

- more than 90% of the attendees registered for the 3 days

- 80% of attendees come as professionals to collect the last information about kernel

- 21 speakers coming from all over the world

- 22 talks

- more than 90 % of our speakers are part of the kernel core team

Kernel Recipes is unique in the way it's organized.
We want to keep it affordable and this is possible because we have sponsors.
Everybody then can attend it whoever he is : students, trainee, or professionnals.
Still our attendees are high level kernel hackers in universities, startups, banks, industries, security...

The conference takes place in a single room so the talks have the full audience and a very attentive one (based also on speakers impressions).

Sponsoring this event is also a way to contribute to the Linux kernel project allowing people to meet and learn from great developers but also allowing kernel developers to meet themselves there.

New !

Help us to organize the first Kernel Recipes 2023 Workshop

Where?
In a cool and friendly venue for better sharing and discussions: in the countryside, on a boat,... we are still looking for it!
What format?
Small informal working groups, over half a day at most, led by kernel.org developers, to learn, test, develop...

About what ?
Debugging or testing, new features in practice, writing documentation, learning how to contribute... in short, everything that makes up the kernel project and community. And maybe raise new kernel contributers !

Who could participate ?
Basically anybody passionnate about Open Source and the kernel project. We want it affordable as for the conference. That's why we need you there!

You can contribute to this brand new Kernel Recipes moment ! Hopefully this will be the very first workshop but to be continued in the next editions !
